RUSSIAN SPARKLING BIJOUX

*Jewels made with the soutache
technique by Lorenza Marchetti*

JEWELS THAT EVOKE ANCIENT SPLENDOURS

The soutache technique has a long tradition. Initially it was used to decorate the uniforms of the Cossacks and the clothes of the zarines, now revisited in a hyper-feminine way with sinuous, graceful and harmonious curves.

EACH PIECE OF JEWELRY IS A UNIQUE PIECE

Colour coordination, combinations of materials, colour contrasts and design details are born on the workbench together with needle and thread...

CAREFUL RESEARCH OF MATERIALS

Swarovski crystals, semiprecious stones and Murano glass, which are set by silk and viscose trimmings or special yarns such as linen and denim to enhance their shapes and natural beauty.
